Name of person (child's health Care Practitioner, child's parent, program's health care consultant) who trained the staff:
Child's Parent

For Older Children ONLY (9+ years of age) who have permission to carry their own medication:
With written parental consent and authorization of a licensed health care professional, this IHCP permits older school age children to carry their own inhaler and/or EpiPen and use them as needed without the direct supervision of an ASC staff member. The inhaler / EpiPen will be stored in a zippered section of the child's backpack.
The staff members are aware of the contents and requirements of the child's IHCP specifying how the inhaler or EpiPen will be kept secure from access by other children in the program. Whenever an IHCP provides for a child to carry his own medication, the licensee must maintain on-site a back-up supply of the medication for use as needed. Back up medication received? YES NO
The child named above, age _____ has permission to carry and self administer his INHALER EPI-PEN
